

COVID-19 TESTING INFO

Kills 99.99% of Viruses and Bacteria

Following successful testing of our **Antibacterial formula used in all of our Wet Wipes**, we can now state that Offshoot's Antibacterial formula kills viruses as well as bacteria. If you require further information please email info@offshootpaper.co.nz

Clinical testing has shown that our formula received a pass for **effectively killing a minimum of 99.9999% of common gram positive and negative bacteria**.

- MRSA - Gram (+) Bacteria
- Klebsiella Pneumonia - Gram (-) Bacteria
- Candida Albicans - Yeast
- Staphylococcus Aureus (Staph) - Gram (+) Bacteria
- Escherichia coli (E. coli) - Gram (-) Bacteria
- Pseudomonas Aeruginosa - Gram (-) Bacteria
- Listeria Monocytogenes (Listeria) - Bacteria
- Salmonella typhimurium (Salmonella) - Gram (-) Bacteria
- Aspergillus - Fungi/Mold

Clinical testing has also shown that our formula received a pass for **effectively killing 99.99% of viruses**. Tests were conducted on the Murine hepatitis virus (MHV) – 1 ATCC/VR-261 by Eurofins Australia www.eurofins.com.au. "Murine hepatitis virus (MHV) – 1 ATCC/VR-261 is recognised as a suitable surrogate virus strain for use in disinfectant efficacy tests to justify claims against COVID-19." TGA Australia
